Industrial Materials Product Catalogue

Sheets, rods and drawing-based industrial plastic components

This catalogue reflects the products and size choices currently listed on the KD Enterprises website. Exact grades, thicknesses, stock availability and processing requirements are confirmed against each enquiry or drawing.

PRODUCTS	LISTED SHEET SIZE OPTIONS	SERVICES
10	24	Cutting · drilling · drawing-based supply

Material range

Acrylic Products, Nylon Products, Industrial Rods & Sheets, Glass Epoxy Sheet, Bakelite / Phenolic Sheet, Acrylic Sheets, Nylon Sheets, FRP Sheets, Delrin / Acetal Sheets, Custom Plastic Components

Acrylic Products

Acrylic Sheet / Acrylic Pipe

Clear, weather-resistant acrylic sheets for guards, covers, displays and fabrication panels.

Listed sheet sizes: 1220 x 2440 mm, 1830 x 2440 mm, Custom size on enquiry

Applications: Machine guards, Transparent covers, Display panels, Signage, Protective screens, Fabrication panels

Properties: Optical clarity, Lightweight, Weather resistant, Easy to fabricate

Industries: Display, Signage, Machine guards, Protective covers

Nylon Products

Nylon Rod / Cast Nylon Rod

Durable nylon stock for wear-resistant machined and cut mechanical components.

Listed sheet sizes: 1000 x 2000 mm, 1220 x 2440 mm, Custom size on enquiry

Applications: Bushes, Spacers, Wear pads, Rollers, Industrial blocks, Mechanical support parts, Nylon bushes and spacers, Low-friction support components

Properties: Wear resistant, High load capacity, Low friction, Machinable

Industries: Automobile, Machinery, Textile machinery, Industrial maintenance, Mechanical components

Industrial Rods & Sheets

Polycarbonate / Delrin / PU

Industrial plastic stock for machine guards, support parts, fixtures and drawing-based components.

Listed sheet sizes: 1220 x 2440 mm, 2050 x 3050 mm, Custom size on enquiry

Applications: Machine guards, Precision cut parts, Industrial fixtures, Support blocks, Custom engineering parts, Custom plastic mounting blocks

Properties: Impact strength, Dimensional stability, Custom machinable, Industrial grade

Industries: Industrial machinery, Custom engineering, Machine builders, Automobile, EV equipment

Glass Epoxy Sheet

FR4 / G10 Epoxy Sheet

High-strength electrical insulation laminate for switchgear, transformer and electronics applications.

Listed sheet sizes: 1020 x 1220 mm, 1220 x 2440 mm, Custom size on enquiry

Applications: High-strength electrical insulation, Switchgear parts, Transformer parts, Terminal boards, Precision cut electrical components, Electronics support structures, Signal system insulation components, Charger cabinet insulation plates, Busbar support insulation

Properties: High dielectric strength, Rigid, Heat resistant, Moisture resistant

Industries: Electrical, Switchgear, Transformer, Railway, EV charging cabinets

Bakelite / Phenolic Sheet

Phenolic Laminated Sheet

Hard, heat-resistant industrial laminate used for electrical insulation and custom drilled components.

Listed sheet sizes: 2440 x 1220 x 5 mm, 1220 x 2440 mm, 1220 x 1830 mm, 1000 x 2000 mm, Custom size on enquiry

Applications: Electrical insulation boards, Solar panel mounting plates, Control panel backing plates, Switchgear insulation, Transformer terminal boards, Heat-resistant industrial fixtures, Custom drilled electrical components, Electrical insulation plates, Signal system insulation components, Switchgear insulation boards, Battery pack insulation support, Electrical mounting boards, Heat-resistant phenolic support plates

Properties: Electrical insulation, Heat resistant, Rigid, Cost effective, Drillable

Industries: Electrical, Solar, Railway, EV equipment, Industrial machinery

Acrylic Sheets

Cast / MOP Acrylic Sheet

Premium acrylic sheets for visual, protective and fabricated panel requirements.

Listed sheet sizes: 1220 x 2440 mm, 1830 x 2440 mm, Custom size on enquiry

Applications: Machine guards, Transparent covers, Display panels, Signage, Protective screens, Fabrication panels

Properties: Clear finish, Polishable edges, Lightweight, Easy cutting

Industries: Display, Signage, Machine guards, Protective covers

Nylon Sheets

Extruded / Cast Nylon Sheet

Strong nylon sheet stock for wear pads, support blocks and fabricated machine parts.

Listed sheet sizes: 1000 x 2000 mm, 1220 x 2440 mm, Custom size on enquiry

Applications: Bushes, Spacers, Wear pads, Rollers, Industrial blocks, Mechanical support parts, Nylon bushes and spacers, Low-friction nylon support components

Properties: Tough, Wear resistant, Low friction, Good mechanical strength

Industries: Automobile, Machinery, Textile machinery, Industrial maintenance, Mechanical components

FRP Sheets

Fiberglass Reinforced Plastic Sheet

Lightweight corrosion-resistant sheets for utility panels, covers and insulation applications.

Listed sheet sizes: 1220 x 780 x 5 mm, 1020 x 1220 mm, 1220 x 2440 mm, Custom size on enquiry

Applications: Corrosion-resistant panels, Electrical insulation, Industrial covers, Chemical area panels, Lightweight machine parts, Utility panels, Railway panels, Outdoor utility panels

Properties: Corrosion resistant, Lightweight, Insulating, Weather tolerant

Industries: Chemical areas, Electrical, Industrial covers, Railway panels, Outdoor utility panels

Delrin / Acetal Sheets

Acetal Engineering Plastic

Precision engineering plastic for low-friction, dimensionally stable machined parts.

Listed sheet sizes: 1000 x 2000 mm, 1220 x 2440 mm, Custom size on enquiry

Applications: Precision engineering parts, Low-friction components, Gears, Bushes, Support blocks, Machined plastic components, Delrin low-friction parts, Low-friction moving parts

Properties: Low friction, High stiffness, Dimensional stability, Excellent machinability

Industries: Automobile, EV, Precision machinery, Low-friction moving parts, Engineering components

Custom Plastic Components

Cut, drilled and drawing-based industrial plastic parts

Made-to-order components processed from Bakelite, FRP, epoxy, acrylic, nylon and Delrin as per drawing, sample or size.

Listed sheet sizes: No standard size is listed; enquire with the drawing or specification.

Applications: Industrial plastic cut components, Mounting plates, Corner cut parts, Control panel parts, Custom cut-out work, Sample-based parts, Control cabinet backing plates, Custom drilled phenolic/glass epoxy parts, Custom plastic mounting blocks

Properties: Made to drawing, Sample-based support, Batch-wise supply, Deburred after cutting/drilling

Industries: Electrical, Solar, Railway, EV equipment, Automobile, Industrial machinery

Size and availability notes

Dimensions are in millimetres where shown. Some listings provide length and width only; thickness is selected per enquiry. Rod diameters, pipe sizes, tolerances and material grade options are not published in the current website data and should be confirmed with KD Enterprises before ordering.
